This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

The examination in the Latin and Greek Grammars, in Latin and Greek Composition, and in Arithmetic, Algebra, nd Geometry, is in writing, one hour being allowed for each exercise.

It is very important that the candidates should be thoroughly prepared, particularly in grammatical and elementary knowledge. If they have more time than is requisite for this purpose, instructors are desired and advised, for obvious reasons, not to anticipate the books read in College, but to direct the attention of their pupils to other authors.

TIME AND CONDITIONS OF EXAMINATION.

All candidates for admission to College, whether to the Freshman Class or to advanced standing, will begin by being examined for admission to the Freshman Class.

The regular examination for the Freshman Class takes place on the Monday and Tuesday of Commencement week (July 16th and 17th, 1860), beginning precisely at 8 o'clock, A. M., on Monday. The candidates assemble in No. 16 University Hall. Attendance on both days is required.

The continuation of the examination of those who offer themselves for advanced standing will be deferred to the end of the vacation.

For the convenience of those who are prevented from being present at the regular examination, there will be another examination for the Freshman Class, at the commencement of the First Term, on Thursday and Friday, August 30th and 31st, 1860, attendance on both days being required. On the next day, Saturday, September 1st, 1860, the examination of candidates offered for advanced standing, including those offered on Commencement week, will be continued and concluded. The candidates will assemble each day in No. 16 University Hall, at 8 o'clock, A. M.

An examination for admission to advanced standing in the Freshman, Sophomore, and Junior Classes takes place on Thursday and Friday, March 1st and 2d, 1860, at the commencement of the Second Term, beginning precisely at 8 o'clock on Thursday morning. The candi-

dates assemble in No. 16 University Hall. Attendance on both days is required.

No person will be examined for admission to College at any other time than those above specified.

No person will be received to examination, unless it be intended that, if admitted, he shall immediately join his Class.

Candidates may be admitted to advanced standing as late as the First Term of the Senior year, provided they present themselves for examination as above directed. In order to such admission to advanced standing, the candidate, whether from another College or not, must appear, on examination, to be well versed in the following studies:—

1. In the studies required for admission to the Freshman Class.

2. In all the *required* studies, and, if after the commencement of the Junior year, in one of the *elective* studies, already gone over by the Class for which he is offered.

He must also pay to the Steward, at the rate of $45 per annum, according to the standing to which he is admitted. Any Student, however, who has a regular dismission from another College, may be admitted to the same standing, if, on examination, he is found qualified, without any pecuniary consideration. This charge for advanced standing is also remitted to indigent Students.

Every candidate, before examination, must produce proper testimonials of a good moral character, and, if admitted, must give a bond for four hundred dollars to pay all charges accruing under the laws and customs of the University. The bond must be executed by two bondsmen, who must be satisfactory to the Steward of the College, and one of them must be a citizen of Massachusetts.

EXERCISES IN COMPOSITION AND ELOCUTION.

THE Sophomore and Freshman Classes have each an exercise in Elocution once a week.

The Junior Class has an exercise in Declamation every week.

The Junior Class has an exercise in Themes once in two weeks, and the Sophomore Class once in four weeks.

The Senior Class has an exercise in Forensics once in two weeks.

Each Class writes Greek and Latin Exercises.

ELECTIVE AND EXTRA STUDIES.

ALL the studies of the Freshman and Sophomore years are *required*, except that French when taken by the Sophomores is taken as an *extra*. In the Junior year Mathematics, Chemistry, German, French, and Spanish are elective studies, and in the Senior year Latin, Greek, and Italian are added to these electives; the rest are required.

In the last two years of the College course each Student must take one of the elective studies assigned to his Class; he is also allowed to take another as an *extra*. The elective study, when chosen, becomes a required study for that year to those who choose it, and credit is given for it on the scale of rank, as in the case of required studies; but no credit is given for *extra* studies.

EXAMINATIONS.

EACH Class is examined annually, and in writing, in the several studies of the year, before committees appointed for that purpose by the Overseers, and the results of these examinations have an important bearing on the rank of the Student, and, in some cases, on his continuance in College.

VOCAL MUSIC.

INSTRUCTION in Music, with special reference to the devotional services in the Chapel, is open to all Undergraduates. The course will extend to the higher branches of part-singing.

Separate classes for graduates will be formed if desired.

COLLEGE GYMNASIUM.

THE Gymnasium is open to all members of the University, subject to certain rules and conditions. The fee for attendance and instruction is two dollars a Term.

PUBLIC WORSHIP.

THERE are daily devotional services, with the reading of the Scriptures, and singing, in the College Chapel. All Undergraduates are required to be present; as they are also at public worship in the Chapel on Sunday, except such as have special permission, at the request of their parents or guardians, to attend other congregations, in the City of Cambridge or elsewhere.

EXPENSES.

THE expenses of an Undergraduate for a year are as follows:—

Instruction, Library, Lecture-rooms,	$75.00
Rent and care of Room, in the College Buildings,	20.00
Board for 40 weeks at $3.50 per week,	140.00
Text-books (average),	12.00
Special Repairs, &c.,	from 1 to 2.00
	$249.00

Other expenses must vary with the economy of each Student. Wood and coal ready for use are delivered at the Students' rooms, by the lessee of the College Wharf, on contract, at $8.00 per cord for wood, and $6.00 per ton for coal. The rent of rooms in private houses is from $52 to $100 per annum. The price of board varies from $2.75 to $4.00 per week. Students living in College buildings find their own beds and furniture.

TERM-BILLS.

☞ THE bills containing College charges are to be made out by the Steward, at the end of each Term; and must be settled *within a week from the commencement of the succeeding Term.*

☞ *The bill for the Second Term of the Senior year must be paid two days at least before Commencement; and no Degree can be conferred until all books are returned to the Library, and all dues to the College are discharged.*

PECUNIARY ASSISTANCE TO MERITORIOUS STUDENTS.

SCHOLARSHIPS.

SIXTEEN Scholarships have been established in the College, varying in their annual income from one hundred to three hundred dollars: —

One founded by persons educated at Phillips Exeter Academy, called, in honor of the late Principal of that school, the ABBOT SCHOLARSHIP.

A second, founded by the Class of 1814, and called the SCHOLARSHIP OF THE CLASS OF 1814.

Four in fulfilment of a bequest of Dr. George C. Shattuck, called the SHATTUCK SCHOLARSHIPS, with an income of one hundred and fifty dollars each.

And ten founded by John Eliot Thayer, Esq., called the THAYER SCHOLARSHIPS, with an income of three hundred dollars each.

There are special provisions affecting the assignment of the Abbot Scholarship, and the Scholarship of the Class of 1814. The income belonging to the other Scholarships is bestowed upon Students recommended by the Faculty of the College to the Trustees of the funds. Applications from persons who wish to be considered as candidates will be received on or before the 15th day of December of each year; but none except very high scholars will be recommended by the Faculty, and no others are encouraged to apply. From the list of candidates the Faculty will make nominations to the Trustees, at the first stated meeting in January, being guided principally by the scale of rank for the preceding year, but having regard also, in the case of the more advanced Classes, to their whole College course. The nominations from the Freshman Class will be made with reference to their proficiency during the First Term.

The Scholarships, when voted, will be understood to cover the current College year, the income being paid semiannually; but the obtaining of a Scholarship for one year will not be held to constitute any sort of title to a second nomination, unless the superiority for which it was originally awarded be fully maintained.

BENEFICIARY FUND.

VARIOUS bequests and donations have from time to time been made to the President and Fellows, the income of which is appropriated for the aid of deserving Students in narrow circumstances. The annual amount thus distributed from this source is about fourteen hundred dollars, which has usually been given as a gratuity, in sums ranging from twenty to sixty dollars. As some Students prefer to receive the aid in the form of a loan, the Corporation have divided the income of the beneficiary funds into two parts; one of which is given as a gratuity, and the other granted on loan to such Students as prefer to receive the aid in that form.

Applications for aid from the Beneficiary Fund are addressed to the President, and must be presented to him on or before *the 15th day of May*, by the parent or guardian, or by the Student himself if of age. The application should state particularly the circumstances of the case, with the reasons for making it, and whether a gratuity or a loan is desired.

LOAN FUND.

IN addition to the Beneficiary Funds above described, of which the President and Fellows are trustees, there is a Loan Fund, raised a few years since by subscription among the friends of the University, the interest of which, amounting to about twelve hundred dollars, is annually lent to meritorious Students desirous of receiving it, in sums ranging from twenty to eighty dollars. This fund is under the control of a Board of Trustees, in Boston; Edward Wigglesworth, Esq., Treasurer. It has been in operation about nineteen years. About eight thousand dollars have been already added to the principal by reimbursements to that extent.

The applications for the Loan Fund, made in the same manner as for the Beneficiary Fund, by the parent or guardian, or by the Student himself, if of age, should be left with the President as early as *the first day of December*.

"The Trustees of the Fund for assisting Students at Harvard College request applicants for loans to observe the following rules: —

Digitized by Google

"1. To address their applications to the Treasurer of the Loan Fund, Edward Wigglesworth, Esq., Boston.

"2. To set forth their circumstances fully, as they would do on making application to an individual for like aid.

"3. To state what aid they have received, or expect to receive, from the College.

"4. If an applicant is under twenty-one years of age, his application must be accompanied by the written approval of his parent or guardian."

MONITORSHIPS, &c.

BESIDES the foregoing provisions for the aid of meritorious Students, the various monitorships, &c. amount to four hundred and eighty dollars a year, which may be considered as an addition, to that extent, to the beneficiary funds of the institution.

SCHOOL-KEEPING.

MERITORIOUS Students, whose circumstances require it, may, at the discretion of the Faculty, be absent for a limited time, not exceeding thirteen weeks, including the Winter Vacation, for the purpose of keeping school.

Applications for permission to keep school must be presented to the President as early as the 15*th day of November*, and no absence will be allowed till a certificate of such permission has been first obtained from the President.

PRIZES.

I. DETURS.

A DISTRIBUTION of books, called "Deturs," is made from the income of the Hopkins Foundation, near the commencement of the Academical Year, to meritorious Students of the Sophomore Class, and to those Juniors who entered the Sophomore Class, and whose merit would have entitled them to this distinction. Thirty *Deturs* were given in the Sophomore Class, and five in the Junior Class, the last year.

Deturs are also given to such members of the Junior Class as, not having received them in the Sophomore year, shall, in the course of that year, make decided improvement in scholarship.

II. BOWDOIN PRIZE DISSERTATIONS.

IN the Second Term of the Academical Year, prizes are assigned, from the Foundation of James Bowdoin, for English Dissertations, as follows:—

A prize of *fifty dollars* for the best Dissertation by a Resident Graduate of the University, on either of the subjects proposed for writers of that standing;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Senior Class of Undergraduates, on either of the subjects proposed for that Class;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Junior Class, on either of the subjects proposed for that Class;

Provided there be so many Dissertations worthy of prizes in the opinion of the judges.

Instead of the sums of money above named, gold medals of equivalent value will, if preferred, be given to the successful competitors.

The Dissertations must be left at the President's office by the *first day of May. No performance will be received after that date.* The title-page must, with an assumed name, state the standing of the writer, as Graduate or Undergraduate, and if the latter, of what Class. A sealed letter must be sent in at the same time, under cover with the Dissertation, containing the true name of the writer.

Digitized by Google

The Dissertations must be written upon letter-paper of good quality, of the quarto size, with a margin of not less than one inch at the top and bottom and on each side, so that, if successful, they may be bound up without injury to the writing. The sheets on which the Dissertation is written must be securely stitched together.

No Dissertation to exceed in length the amount of twenty-five printed pages of the North American Review.

The following are the subjects for the present Academical Year: —

FOR RESIDENT GRADUATES.

Sir William Hamilton's Charges against Luther.

The Various Tenures on which Land is held in different Countries considered as affecting the Economical and Political Condition of the People.

FOR MEMBERS OF THE SENIOR CLASS.

The Study of Words regarded as a Contribution to the History of Thought.

The French Revolution as viewed by Burke and De Tocqueville.

FOR MEMBERS OF THE JUNIOR CLASS.

The Greek Poetesses.

The Pope as a Temporal Sovereign.

The prizes for the last Academic Year were assigned as follows: —

Resident Graduates.

To HENRY WILDER FOOTE, *of the Divinity School.*

COMMITTEE. — Rev. Rufus Ellis, Hon. Charles F. Adams, and William Bentley Fowle, Esq.

Senior Class.

To FREDERICK MAY HOLLAND, *a First Prize.*

" SAMUEL HAVEN HILLIARD, *a Second Prize.*

COMMITTEE. — Hon. Waldo Flint, W. R. P. Washburn, Esq., and Rev. Samuel K. Lothrop, D.D.

III. BOWDOIN PRIZES FOR LATIN AND GREEK COMPOSITION.

Two Prizes will be assigned for Latin and Greek compositions, from the Bowdoin Prize Fund, under the following regulations for the present year.

A prize of *thirty-five dollars* for the best composition in Latin Verse, by a member of either the Senior or the Junior Class.

A prize of *thirty-five dollars* for the best composition in Greek Prose, by a member of either the Senior or the Junior Class.

The subjects for the compositions are given out, and the prizes awarded, by the Latin and Greek Departments, acting, in conjunction with the President, as a committee of the Faculty for that purpose.

No prize will be awarded unless the absolute merit of the composition shall be such as to deserve it.

The compositions must be left at the President's Office by the *first day of May*, in sealed envelopes, accompanied by sealed letters containing the authors' names.

The following are the subjects of the Compositions for the present Academical Year.

FOR LATIN VERSIFICATION.

Kingsley's Andromeda, the first 104 *verses*, to be translated into Latin Hexameters.

FOR GREEK PROSE.

The Return of Demosthenes after the death of Alexander the Great.

No Student is allowed to write on both subjects.

The following Prizes were awarded last year: —

For Latin Versification.

To FRANCIS CUSTIS HOPKINSON, *of the Senior Class.*

For Greek Prose.

To JOHN TORREY MORSE, *of the Junior Class.*

IV. BOYLSTON PRIZES FOR ELOCUTION.

AGREEABLY to the institution of the "Boylston Prizes for Elocution," on the day after Commencement in each year there will be held in University Hall, or in the First Church in Cambridge, a public exhibition and trial of the skill and improvement of the Students of the University in elocution.

Digitized by Google

The speakers are not to rehearse their own compositions; but to select pieces in prose or verse from English, Greek, or Latin authors, the selections to be approved by the Boylston Professor of Rhetoric and Oratory. The proportion in English is to be at least two out of three.

The competitors must be Graduates of the year, or Undergraduates of one of the next two Classes; and their names must be entered with the Professor, at the latest, *fourteen days* before Commencement. No applications will be received after that time.

The Corporation will, each year, select five gentlemen distinguished for their elocution, either at the bar, in the pulpit, or in the senate, who, with the Corporation, or a major part of them, will judge of the merits of the competitors, and award the prizes. They will assign five prizes: two First Prizes, namely, *fifteen dollars*, or a gold medal of that value, to each of the best two speakers; and three Second Prizes, namely, *ten dollars*, or a gold medal of that value, to each of the next three best: Provided, that if the judges shall be of opinion that none of the competitors have exhibited sufficient skill and improvement to be entitled to the First Prizes, they may withhold them.

At this exhibition, no prompting of the speakers will be allowed; and a failure of memory in any one will exclude him from being considered in the assignment of the prizes.

The following prizes were assigned, July 21st, 1859.

The two First Prizes.

To EDWARD CROSBY JOHNSON, *of the Senior Class.*

" HIRAM SMITH SHURTLEFF, *of the Junior Class.*

The three Second Prizes.

To WILLIAM EVERETT, *of the Graduating Class.*

" HENRY FREEMAN ALLEN, *of the Senior Class.*

" JAMES ANCRUM WINSLOW, *of the Graduating Class.*

V. HARVARD MATHEMATICAL PRIZES.

WITH a view to promote the study of Mathematics in the University, the Hon. John C. Gray has given five hundred dollars, to be divided into two prizes of equal value, which are to be awarded to the two members of the Class of 1860, who shall be found, after a special and thorough examination in the Second Term of their Senior year, to have made the greatest proficiency in the study of Pure Mathematics.

The same gentleman has also given five hundred dollars more, to be divided into two prizes of equal value, which are to be awarded in the same way, and on the same conditions, to members of the Class of 1861.

LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

Extract from the Statutes of the University.

"Chapter XII. § 117. No Student shall lodge or board out of the College, except at such houses as are approved by the Faculty, and with the approbation of a parent or guardian, if the Student is under age; and no houses will be so approved, except such as conform to the Regulations the Faculty may establish."

Regulations relative to Lodging and Boarding Houses for Undergraduates.

No Undergraduate shall be allowed to occupy a room in any house or building, (except a public College Hall,) in which a family approved by the Faculty of the College shall not reside; or to take lodgings or board in any house, or board in any family, unless the house or family has been approved by a vote of the Faculty.

No house shall be approved as a lodging or boarding house, unless the keeper of the house shall conform to the following regulations.

1. That, in case of any festive entertainment, riotous noise, or other disturbance in a house so approved, or improper conduct at the table, the keeper of the house shall give immediate notice of the same, and of the persons concerned, to the President of the College.

2. That no wine or spirituous liquors be used; and that no smoking be permitted at the table or in the dining-room.

3. That the hours of meals shall conform to the times most suitable for the exercises of Undergraduates prescribed by the College Laws; that is, for breakfast, immediately after prayers; and for dinner, at one o'clock, except from the Thanksgiving recess to the end of the First Term, when it shall be at two o'clock.

No Student shall change his room in any of the College buildings, or his lodging or boarding house, *without giving immediate notice of the same to the* Registrar, and notice also of the lodging or boarding house to which he has removed.

LAWS RELATIVE TO THE PATRON.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XIV. § 121. Some gentleman of Cambridge, not of the Faculty, shall be appointed by the Corporation to be Patron of all Students, not of this Commonwealth, who belong to places more than one hundred miles distant from Cambridge, and whose parents or guardians desire to avail themselves of the regulations herein provided; and the Patron shall have charge of all the funds of such Students.

"§ 122. The parent or guardian of each Student shall be informed what are the necessary annual expenses included in the term-bills; and he shall also be informed by the Patron what funds for the support and use of his son or ward must be remitted to him; and the Patron is to have the whole control of the same, under the direction of the Faculty.

"§ 123. Every Student subject to the Patron Law is to be charged in his term-bill at the rate of two and a half per cent., as a compensation to the Patron for the disbursements made on his account.

"§ 124. No such Student is allowed to contract any debt without an order from the Patron, or from his parent or guardian."

The foregoing provisions of law, notwithstanding their obvious utility, having for some time been falling into disuse, it has been judged highly expedient by the Faculty and Corporation of the University, that they should be revived.

But inasmuch as circumstances may render it unnecessary or inconvenient to apply the foregoing law in all cases, it has been determined for the present that those Students only shall be placed under the care of the Patron, whose parents or guardians shall signify to the President their desire to that effect, and their willingness to allow the commission above mentioned for his services.

JOHN B. DANA, Esq., of Cambridge, Assistant Steward, has been appointed Patron, and is confidently recommended to parents and guardians as a gentleman in whose discretion and fidelity to the trust entire confidence may be placed.

RESIDENT GRADUATES.

GRADUATES of the University, or of other collegiate institutions, desirous of pursuing their studies at Cambridge without joining any of the Professional Schools, are permitted to do so, in the capacity of Resident Graduates. They are allowed to enjoy the use of the Library and scientific collections, on the payment of *five dollars* a year, one half in advance, at the beginning of each Term.

They give to the Steward satisfactory bonds in the sum of two hundred dollars, signed by two bondsmen, one of whom must be a citizen of Massachusetts, and they are subject to the laws and regulations of the College, as far as applicable to them. They are admitted free to all the courses of public lectures delivered to the Undergraduates; and, upon the payment of a fee of five dollars for each course, to the Lectures delivered in the Scientific School.

DEGREE OF MASTER OF ARTS.

THE Degree of Master of Arts is conferred in course on every Bachelor of Arts of three years' standing, on the payment of the usual fee, who shall, in the interval, have sustained a good moral character. Graduates of longer standing may also have the Master's Degree upon the same condition. In both cases, application should be made at the Steward's office, either personally or by letter, as soon as the second day before Commencement. The fee, including the Diploma, is *five dollars*, payable in advance.

☞ "The College will not be responsible for the safe-keeping of *any* DIPLOMA, unless a request, in writing, is left at the Steward's office, two days, at least, before Commencement, that it may be taken from the files, and reserved for the applicant."

TERMS OF ADMISSION AND COURSE OF STUDY.

CANDIDATES for admission to the DIVINITY SCHOOL are expected to present themselves on the first day of the Term. If unknown to the Faculty, they are to produce testimonials to their moral and serious character. Candidates not Bachelors of Arts will be examined in the following books: —

Latin Grammar, Virgil, Cicero's Select Orations, and Sallust;

Greek Grammar, Felton's Greek Reader, the first four books of Xenophon's Anabasis, and the first book of Herodotus, or the first two books of Xenophon's Memorabilia;

Geography, Arithmetic, Geometry, and Algebra;

Whately's Logic and Rhetoric (or some other approved treatises on Logic and Rhetoric), Locke's Essay on the Human Understanding (Book III.), Stewart's Elements of the Philosophy of the Mind (Vol. I.), or Dymond's Essays on the Principles of Morality, Jouffroy's Introduction to Ethics, and Butler's Analogy.

Candidates for admission to an advanced standing must have been engaged in the study of Theology as long as the Class into which they propose to be received, and must pass an examination in the studies which that Class has pursued.

Students are required to reside in or near Divinity Hall. They give bonds in the sum of $200 to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of term-bills, which, including charges for instruction, rent and care of room and furniture, and use of class-books, amount to $75 annually. Board may be had in the city at various prices, from $2.75 to $4 a week. Rooms in Divinity Hall are let to other than Divinity Students at $30 a Term.

Each Student must possess a copy of the Old and New Testament Scriptures in the original languages, the latter in Griesbach's or Tischendorf's edition. A copy of all other class-books is furnished on loan. Indigent Students are aided from foundations and other sources. Three years, including the Vacations, which amount to twelve weeks in each year, complete the term of residence.

The course of instruction comprises Lectures, Recitations, and other exercises, on all the subjects usually included in a system of Theological Education, embracing, —

The Hebrew Language;

The Principles of Criticism and Interpretation;

The Criticism and Interpretation of the Scriptures;

Natural Religion, and the Evidences of Revealed Religion;

Systematic Theology, Christian Ethics, and Practical Divinity;

Church History, and Church Polity;

The Composition and Delivery of Sermons, and the Office of Public Prayer;

And the Duties of the Pastoral Office.

The members of the several Classes have exercises in the practice of Extemporaneous Speaking, and the members of the Senior Class preach occasionally in Cambridge during the Summer Term.

Students are entitled to receive instruction from the Instructor in the German Language, and to attend, free of expense, all public lectures given to Undergraduates in the Academical Department.

It is considered of great importance, that those who enter the School should be present at the beginning of the First Term.

INSTRUCTION, LIBRARY, EXPENSES, PRIZES.

THE design of the LAW SCHOOL is to afford a complete course of legal education for gentlemen intended for the Bar in any of the United States, except in matters of mere local law and practice; and also a systematic course of studies in Commercial Jurisprudence for those who intend to devote themselves exclusively to mercantile pursuits.

The COURSE OF INSTRUCTION for the Bar embraces the various branches of the Common Law, and of Equity; Admiralty; Commercial, International, and Constitutional Law; and the Jurisprudence of the United States.

The COURSE OF INSTRUCTION for the Mercantile Profession is more limited, and embraces the principal branches only of Commercial Jurisprudence; namely, the Law of Agency, of Partnership, of Bailments, of Bills of Exchange and Promissory Notes, of Insurance, of Shipping, Navigation, and other maritime concerns, of Sales, and, if the Students desire it, of Constitutional Law.

The LAW LIBRARY consists of about 15,000 volumes, and includes all the American Reports, and the Statutes of the United States, as well as those of all the States, a regular series of all the English Reports, including the Year-Books, and also the English Statutes, as well as the principal treatises in American and English Law; besides a large collection of Scotch, French, German, Dutch, Spanish, Italian, and other Foreign Law; and a very ample collection of the best editions of the Roman or Civil Law, together with the works of the most celebrated commentators upon that Law.

The Library is open for the use of Students during the Terms and the Winter Vacation, and those who desire it pursue their studies there, especially in the preparation of their Moot Court cases.

No public instruction is given in the local or peculiar municipal jurisprudence of any particular State; but the Students are assisted by the Professors, as occasion may require, in the private study of the law and practice peculiar to their own States.

Instruction is given by oral lectures and expositions, (and by recitations and examinations, in connection with them,) of which there are ten every week.

Digitized by Google

A Moot Court is held each week, at which a cause, previously assigned, is argued by four Students, and an opinion delivered by the presiding Professor.

Clubs are formed among the Students, in which dissertations upon legal subjects are read, and cases argued.

No examination, and no particular course of previous study, are necessary for admission; but the Student, if not a graduate of some college, must be at least nineteen years of age, and produce testimonials of good moral character. He also gives a bond, in the sum of $200, to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of College dues; or deposits, at his election, $150 with the Steward, upon his entrance, and at the commencement of each subsequent Term, to be retained until the end of the Term, and then to be accounted for. No Student is matriculated until such testimonials are produced, and bond given.

Students may enter the School in any stage of their professional studies or mercantile pursuits. But they are advised, with a view to their own advantage and improvement, to enter at the beginning of those studies, rather than at a later period.

The Course of Studies is so arranged as to be completed in two Academical Years; and the studies for each Term are also arranged, as far as they may be, with reference to a course commencing with that Term, and extending through a period of two years; so that those who are beginning the study of the law may enter, at the commencement of either Term, upon branches suitable for them. Students may enter, also, if they so desire it, in the middle, or other part, of a Term. But it is recommended to them to enter at the beginning of an Academical Year, in preference to any other time, if it be convenient. They are at liberty to elect what studies they will pursue, according to their own view of their wants and attainments; but, as a general rule, it is advisable for them, during the First Term, to confine themselves to few branches, as subjects of regular study, giving attendance, however, upon all the lectures.

When a Student is desirous of pursuing a branch of study which does not form the subject of general instruction in that particular Term, the Professors will render him aid in its pursuit as a private study.

The Terms of the Law School coincide with those of the Undergraduate Department.

The fees are $50 a Term, and $25 for half or any smaller fraction of a Term; for which sum, without any additional charge, Students have the use of the lecture-rooms, the Law and College Libraries, and the text-books; and they are admitted free to all the courses of public lectures delivered to the Undergraduates in the *Academical Department* of the University.

Upon the payment of a fee of $5 for each course, the Law Students may also attend the Lectures delivered in the Lawrence Scientific School, on Zoölogy and Geology, by Professor AGASSIZ; on Comparative Anatomy and Physiology, by Professor WYMAN; on Botany, by Professor GRAY; and on payment of a fee of $10, the Lectures on Chemistry, by Professor HORSFORD. They may also study any one of the foreign languages taught in the University, on payment of a fee of $10 per annum.

The other expenses for a Term are nearly as follows: —

Board, in boarding-houses, twenty weeks, from $3.00 to $5.00 per week,	from	$60	to $100
Room-rent, including care of room, but not making fires,		26	to 75
Furniture (if the Student does not furnish his room),		10	to 20
Washing,		7	to 15
Fuel, for the First or Winter Term, from August to January,		12	to 25
" for the Second or Summer Term, from February to July, from $6 to $10.			
Servant (if one is employed) to make fires, &c.,		5	to 10
		$120	to $245

If Students mess together, or enter into some similar and economical arrangement, board need not exceed $2.00 or $2.50 a week.

Fuel, prepared for use, is furnished by the lessee of the College Wharf, at the market price, if the Students desire it.

PRIZE DISSERTATIONS.

PRIZES will hereafter be annually awarded, near the close of the second term of each Academical year, for the best and second-best Dissertations, written by Students of the Law School, on subjects given out by the Law Faculty, as follows: —

A prize of *sixty dollars* for the best, and of *fifty dollars* for the second-

best Dissertation, by a Student who has attended the Law School at least three of the four Terms immediately preceding the award.

A prize of *fifty dollars* for the best, and *forty dollars* for the second-best Dissertation, by a Student who has attended two of the three Terms next preceding the award.

The Term in which the award is made is included in the computation.

Students entitled to compete for the first prizes cannot write for the second.

The merit of the Dissertations will be adjudged by committees of Counsellors at Law, appointed by the Law Faculty.

The prizes will be awarded at the close of each Academical Year. No prizes will be awarded if no Dissertation offered shall be deemed to have sufficient merit.

The Dissertations must be left at the office of one of the Faculty, while the writer is a member of the Law School, and by the *first day of May* annually. Each Dissertation must have a motto, or assumed name, written upon it, and be accompanied by a sealed letter, having the same motto or name on the outside, and the true name of the writer within. Unsuccessful Dissertations will be returned to the writers when requested. A copy of the successful Dissertations must be left with one of the Faculty for preservation in the Library of the Law School. They must all be written on letter-paper of good quality, of the usual quarto size, with a suitable margin, so that, if successful, they may be bound up without injury to the writing. The sheets must be securely stitched together.

No Dissertation to exceed in length the amount of thirty pages, as large as the 16th page of the first volume of Greenleaf's Evidence, 2d edition.

No Student will write on both subjects.

The following are the subjects for the present Academical Year: —

FOR STUDENTS THREE TERMS IN THE SCHOOL.

Of the estate of mortgagor and that of the mortgagee in mortgaged real property.

FOR STUDENTS TWO TERMS IN THE SCHOOL.

How far the security which ship-owners have, in the goods they carry, for the freight money, is in the nature of a Common Law Lien or a Privilegium of the Civil Law.

REQUISITES FOR ADMISSION.

CANDIDATES for admission must have attained the age of eighteen years, have received a good common English education, and be qualified to pursue to advantage the courses of study to which they propose to give their attention. They must furnish satisfactory evidence of good moral character, give bonds, in the sum of $200, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of all dues to the School, and register their names with the Dean of the Faculty. They will be admitted only at the commencement of a Term, except in extraordinary cases.

REQUIREMENTS OF STUDENTS.

Students of the Scientific School are required to board and lodge at licensed houses. They shall conduct themselves in a courteous and gentlemanly manner, and shall comply with all the regulations of the School and of the Department to which they belong. They are expected statedly to attend religious worship, at such place as their parents or guardians may direct.

A Scientific Student violating these regulations, or participating with an Undergraduate in an offence against the laws of the College, is liable to dismission from the School.

DEGREES.

The degree of *Bachelor of Science* may be conferred upon any Student who, having attended the instructions of the School for at least one year, and completed the prescribed course of studies in one or more Departments, shall have passed a satisfactory public examination.

The Department or Departments in which the Student has been examined, and his grade of merit, will be specified in the Diploma, and each Diploma will bear the signatures of the President and Faculty.

Certificates may be granted to Students who do not graduate, stating the time they have been present in the School, the studies pursued, and the progress made.

COURSES OF INSTRUCTION.

The number and choice of studies are optional on the part of Students, who will, however, be counselled on these points by the Professors; but a punctual attendance on all prescribed exercises will be required.

I. CHEMISTRY.

PROFESSOR HORSFORD will receive Special Students to the course of instruction in Experimental Chemistry and research, who will give their attendance in the Laboratory from 9 o'clock, A. M. till 5 o'clock, P. M.

The course will include instruction in —

Theoretical and Experimental Chemistry, and Systematic Qualitative and Quantitative Analysis, in all their branches;

Pharmaceutical Preparations for the Laboratory and Apothecary, and the methods for the determination of the value of drugs generally;

Mineral assays, Metallurgy, analysis of soils and ashes, examination for poisons, manufacture of manures, and the various determinations required in the practice of medicine;

The solution of problems of research in experimental science and in the applications of science to the arts and manufactures.

In addition to the practical instruction in Chemistry as an art, in which each Student is necessarily a class by himself, there is a systematic daily exercise, on the blackboard, in the solution and explanation of chemical problems.

A knowledge of Algebra, Geometry, and Trigonometry, and an acquaintance with Stöckhardt's Elements of Chemistry, or its equivalent, are required for admission.

Text-Books and Works for Reading and Reference.

Will's Outlines of Chemical Analysis.
Fresenius's Quantitative Analysis.
Regnault's Elements of Chemistry.
Gmelin's Hand-Book of Chemistry.

II. ZOÖLOGY AND GEOLOGY.

THE instruction in this Department consists, alternately, of a course of Lectures by Professor AGASSIZ on Zoölogy, embracing the fundamental principles of the classification of animals, as founded upon structure and embryonic development, and illustrating their natural affinities, habits, geographical distribution, and the relations which exist between the living and extinct races; and of a course on Geology, both theoretical and practical. The course on Geology will be delivered during the First Term.

Besides the instructions of the lecture-room, Professor Agassiz will afford the Students access to his laboratory during certain hours, in order to show them how to observe isolated facts, how to determine living and fossil animals, how to identify rocks of different formations, and how to conduct a regular geological survey.

For those who intend to make a further study in these sciences, excursions in the neighborhood will be made in term-time, and longer excursions in vacation, to those parts of the country, near or remote, which offer the most instructive field for observation.

Text-Books and Works for Reading and Reference.

Lyell's Travels in North America.

III. ENGINEERING.

PROFESSOR EUSTIS will receive Special Students to the course of instruction in Engineering, who will give their attendance at the School from 9 o'clock, A. M. to 5 o'clock, P. M.

The course will include instruction in —

Surveying, with the use of the instruments, and actual operations in the field.

Digitized by Google

Drawing in all its branches; topographical, outline, shaded, and tinted, including Isometric Projections.

Analytical Geometry and Differential and Integral Calculus.

The principles of Mechanics, and their application to Machinery and Engineering.

Descriptive Geometry.

The theory of shades, shadows, and perspective.

The application of Descriptive Geometry to masonry and stone-cutting, in the construction of groined and cloistered arches, domes, &c.

The nature and properties of building materials, and their application to the construction of railroads, canals, bridges, &c.

The instruction will be given by daily exercises at the blackboard and by lectures.

A knowledge of Algebra, Geometry, and Trigonometry is required before admission.

IV. BOTANY.

PROFESSOR GRAY will give special practical instruction to Scientific Students, attending his Course of Lectures, from the first of April to the close of the term, in classes of not more than three each.

Text-Books.

Gray's Botanical Text-Book, or
Gray's First Lessons in Botany.
Gray's Manual of the Botany of the Northern United States.

V. COMPARATIVE ANATOMY AND PHYSIOLOGY.

SPECIAL instruction will be given in the Anatomical Museum and Laboratory in Boylston Hall, by Professor J. WYMAN.

During the Second Term of the Academic Year, there will be delivered a course of thirty Lectures on Comparative Anatomy and Physiology, commencing in March.

VI. MATHEMATICS.

INSTRUCTION will be given in the *Higher Mathematics*, and especially in *Analytical and Celestial Mechanics*, by Professor PEIRCE.

Private instruction in the various branches of Mathematics will be given to those desirous of receiving it, by competent instructors residing at the University.

VII. MINERALOGY.

PROFESSOR COOKE will receive, during the Second Term, Special Students to the course of instruction in Mineralogy at his Laboratory.

Text-Book. Dana's Mineralogy.

The following courses of Lectures delivered to Undergraduates will be open without charge to members of the Scientific School.

A course on *Chemistry*, by Professor COOKE.

A course on *Systematic Botany according to the Natural System*, by Professor GRAY.

A course on *Physics*, by Professor LOVERING.

A course on *Human Anatomy and Physiology*, by Professor WYMAN.

The formation of a Museum of Natural History, on an extensive scale, has been commenced, under the superintendence of the Professors in the several Departments.

The Anatomical Museum, the Botanic Garden, the Observatory, and the Public Library, are accessible to the Students of the Scientific School.

FEES.

For *special instruction* of those who become private pupils of any Professor, and pursue studies, practical exercises, or experimental research, or make excursions, under his particular direction, the fees are: —

In the Department of Chemistry, for instruction six days in the week, per Term of twenty weeks, *fifty dollars*. For Laboratory apparatus and supplies, *fifty dollars*. For one half or any less fraction of a Term, two thirds of the above sums.

The Special Students in Chemistry are supplied with all needed apparatus, and are required to restore it in as good condition as they receive it.

In the Department of Engineering, for instruction six days in the week, *fifty dollars* per Term. For three days in the week, two thirds, and for one day, one third, of the above sum.

The Special Students in Engineering will supply themselves with drawing materials, necessary text-books, &c.

In the Department of Botany, for instruction two lessons in a week, from April 1st to the end of the Term, *fifteen dollars*. For instruction six days in the week, *forty-five dollars*.

In any of the other Departments, the fees for special instruction may be agreed upon with the instructor.

The Lectures delivered in the Scientific School may be attended by members of the School, and by members of any of the Professional Schools, and by persons not otherwise connected with the University, on payment of a fee of five dollars *per course*. Students of the Scientific School may attend, without charge, any of the Lectures delivered to Undergraduates by the Professors in the Academical Department. They may also study any one of the foreign languages taught in the University, on payment of a fee of *five dollars* per Term.

For Board, Prizes, Room-rent, &c., see pages 38, 42, and 64.

For further information concerning the School, application may be made to Professor E. N. Horsford, Dean of the Faculty.

ASTRONOMICAL OBSERVATORY.

FACULTY.

JAMES WALKER, D.D., LL.D., *President.*
GEORGE P. BOND, A.M.

OBJECTS AND COURSE OF INSTRUCTION.

THE objects of the Observatory are to furnish accurate and systematic observations of the heavenly bodies for the advancement of Astronomical Science, to co-operate in Geodetical and Nautical surveys, in Meteorological and Magnetical investigations, to contribute to the improvement of Tables useful in Navigation, and, in general, to promote the progress of knowledge in Astronomy and the kindred sciences. To aid in effecting these objects, provision is made for publishing the Observations and the Director's Reports, and for increasing the Library.

Practical Astronomy and the Use of Astronomical Instruments will be taught at the Observatory, by Mr. GEORGE P. BOND, Director of the Observatory, and Phillips Professor of Astronomy.

Text-Books and Works for Reference and Reading in the Department of Practical Astronomy.

INSTRUCTION AND DEGREES.

A THOROUGH course of medical instruction, by means of Lectures, recitations, examinations, dissections, and Hospital visits, is afforded to students wishing to enter the medical profession, and to those desirous of an acquaintance with the sciences on which medicine is founded.

Courses of Lectures are delivered annually at the Medical College in North Grove Street, Boston, which commence on the first Wednesday in November, and continue during four months. At the termination of these courses there is an examination for degrees, and the successful candidates receive their diplomas at the Commencement on Wednesday of the week succeeding that in which the examinations are held.

On the following Monday instruction is resumed by the Professors for those who attend during the Summer Term. In this Term there are at least five recitations and two lectures each week. There is a visit at the Hospital every day, four times a week with the physicians, and twice a week with the surgeons. The students have access also to the following courses of Lectures delivered in the University at Cambridge at this time: on Comparative Anatomy and Physiology, by Professor Wyman; on Botany, by Professor Gray; on Acoustics and Optics, by Professor Lovering; and on Zoölogy, by Professor Agassiz.

ANATOMY and PHYSIOLOGY. The Lectures of the winter course are delivered every week-day at one o'clock, Saturday excepted. The demonstrations are aided by a very large number of colored illustrations, and by an extensive cabinet (the Warren Anatomical Museum), which is constantly increasing by regular accessions from a fund appropriated to that purpose, as well as from individual contributions. During the first three months of the summer course recitations in Physiology will be held twice each week, and a course of Lectures and demonstrations will be given, illustrating the use of the microscope and microscopic anatomy. Preliminary examinations in anatomy will be held in the month preceding the winter Lectures.

SURGERY. There are three Lectures each week during the winter term, and a visit to the Hospital every Saturday. The department is provided with an extensive collection of valuable preparations in wax to show various tumors and diseases of the skin, of colored casts in plaster of Paris, and of many beautiful magnified drawings of subjects in Anatomy and Surgery, and also with the newly invented surgical instru-

ments. Students have an opportunity of seeing surgical operations, and these are explained and illustrated by anatomical demonstrations of the parts concerned. Clinical Lectures are delivered on cases seen by the students. There are two recitations a week during the months of March, April, and May, and there are two surgical visits a week at the Massachusetts General Hospital during the eight months of the year occupied by the summer term of instruction.

THEORY and PRACTICE. The subjects formerly included in this department are divided amongst three Professors. Dr. Jackson gives Lectures on Pathological Anatomy, exhibits recent specimens, and devotes an hour every week during the lecture term to an examination of the specimens in the Museum, pointing out what is of especial interest, and giving some account of symptoms.

Recitations are heard during the summer term by his Assistant, who makes the autopsies at the Hospital, and is the Curator of the Museum of Pathological Anatomy belonging to that institution. Dr. Bowditch gives Clinical Lectures at the Hospital, as well as instruction at the bedside; and instruction is given during the summer term, at the Hospital by Dr. Jackson, Dr. Gould, and the other physicians, as well as at the Dispensary by the assistants of the Professor of Clinical Medicine and of Pathological Anatomy, and the other medical officers. The Hersey Professor gives Lectures at the College, and holds examinations and recitations there and at the Hospital, where students have an opportunity of practising physical exploration, and of becoming familiar with the use of chemical analysis and the microscope.

MIDWIFERY and MEDICAL JURISPRUDENCE form one department. The Lectures on the Principles and Practice of Midwifery are illustrated by specimens and plates. Separate instruction is given in Operative Midwifery, and each member of the class has opportunity of learning the use of instruments.

The course on Medical Jurisprudence treats of the practical matters which are involved in the position and duties of experts in medical testimony, and in the examination of medico-legal questions. Recitations are heard twice a week in these departments during the three spring months.

MATERIA MEDICA. The physiological and therapeutical action of drugs is particularly described in these Lectures. Specimens of each medicine and of the various pharmaceutical preparations to which it is subjected, and of its most important combinations and reactions, are

exhibited to the students. During the summer session of the School instruction is given by recitations from approved text-books.

CHEMISTRY. The relations of Chemistry to medicine receive special attention. The principal chemical preparations used in medical practice, poisons, and the tests employed for their detection, are considered. Attention is given to the bearings of Chemistry upon Physiology and Pathology, and to its application to diagnosis. The Lectures are fully illustrated by experiment.

The following *Tables* exhibit the course of study proposed by the Instructors for the ensuing year, and the text-books used in the various departments.

Students are at liberty to vary from this plan.

FEES.

THE fee for matriculation is $3, which is appropriated to the increase of the Library, and is to be paid to the Dean by all wishing to attend any of the winter courses of Lectures.

The fee for instruction during the long term, from the first of March to the first of November, (the months of August and September being appropriated to a vacation,) is $100.

The fees for the winter courses of Lectures amount in all to $80, which are required to be paid when the tickets are taken.

The fee for graduation is $20, which is deposited with the Dean when application is made to him for examination.

A fee of $5 is to be paid by the students who use the dissecting-room during the winter months. This room is open during the months of March, April, and October, and supplied with subjects for the use of students of the summer course without additional expense. There is no charge for the use of the Library or for visits to the Hospital.

The introduction of a summer course of instruction involves no change in the amount or character of the winter courses of Lectures as heretofore conducted, nor in the requisites for a medical degree.

STATUTE REGULATIONS RELATIVE TO MEDICAL DEGREES.

THE FACULTY OF MEDICINE of this University shall consist of the President, and of the Professors and Lecturers authorized to give instruction to the Medical Students. This Faculty shall always have a Dean elected by themselves, for such periods as they may think proper, and may also adopt rules for their own government, provided that the same do not in any respect contravene the laws of the University.

Students of Medicine designing to attend the Medical Lectures, or any of them, shall be matriculated in this University by entering their names with the Dean of the Faculty of Medicine, to be enrolled by him, and by signing an obligation to submit to the laws of the University, and to the direction of the Faculty of Medicine.

There shall be holden by the Faculty two meetings in each year for the purpose of examining candidates for the degree of Doctor in Medicine. These shall be holden in the Massachusetts Medical College, unless otherwise specially ordered. They may be continued by adjournment, by vote of the members present, and if only one member attend

at the time and place designated, he may adjourn the meeting from day to day till three members of the Faculty may attend the meeting. Three members of the Faculty must be present at every examination.

The first meeting for examination shall be held on the day next succeeding that on which the winter courses end; the second, on the Monday next but one preceding the Commencement in July. In extraordinary cases, the Faculty may hold meetings for examination at other times.

Every candidate for the degree of Doctor in Medicine must comply with the following conditions before being admitted to examination: —

1. He shall satisfy the Faculty that he has arrived at the age of twenty-one.

2. He shall have attended two courses of Lectures delivered at the Massachusetts Medical College by each of the Professors; except that, if he have attended a course of similar lectures in any other college or university, the same may take place of one of the above courses.

3. He shall have employed three years in his professional studies under the direction of a regular practitioner of medicine.

4. If he has not received a university education, he shall satisfy the Faculty of Medicine in respect to his knowledge of the Latin language and Experimental Philosophy.

5. He shall, four weeks previous to the day on which he presents himself for examination, have given notice of his intention to the Dean of the Faculty, and at the same time shall have delivered or transmitted to the Dean a dissertation, written by himself, on some subject connected with medicine.

Every dissertation shall be submitted by the Dean to the examination of the Faculty in the mode which they shall point out.

At the meetings for examination, the Faculty shall examine all the candidates who shall present themselves, after having complied with the conditions enumerated in these statutes, upon the following branches of Medical Science; namely, Anatomy, Physiology, Chemistry, Materia Medica, Pharmacy, Morbid Anatomy, Midwifery, Surgery, Clinical Medicine, and the Theory and Practice of Medicine. The decision in respect to each candidate shall be determined by the vote of the major part of the members of the Faculty present at the examination of the same, and this decision, if favorable to the candidate, shall be recorded by the Dean. In the decisions to be made at these meetings, regard shall be had to the dissertation as well as to the examination.

At the close of the examination, the Faculty shall decide in respect to each candidate whether he shall be recommended as worthy of the degree for which he has applied. The decision of the Faculty in respect to all these candidates whom they do so recommend, shall be recorded by the Dean, and shall by him be certified to the President, to be laid before the *Senatus Academicus*.

Those candidates who have at the spring examination received from the *Senatus Academicus* the final approbation, shall be admitted to the degree of Doctor in Medicine by the President of the University at a public Commencement holden on the Wednesday next succeeding the day of the examination, on which occasion an Address shall be delivered by some one selected for this purpose by the Medical Faculty. Those who may be approved at the summer examination will receive their degrees and diplomas in Cambridge, on Commencement Day. Public invitation to attend the ceremony at the Commencement immediately following the Lectures shall be given by the Dean of the Medical Faculty to the Fellows of the Massachusetts Medical Society, to all Medical Students, and to every person who may take an interest in Medical Science.

BOYLSTON PRIZE DISSERTATIONS.

AN ANNUAL PRIZE is assigned, from the Foundation of Ward Nicholas Boylston, for the best Dissertation on a Medical Subject, proposed by a committee appointed by the President and Fellows of the University.

The prize is of the amount of *one hundred and twenty dollars*, and may be taken either in money, or in the form of a gold medal of that value.

The Dissertations must be sent to Dr. E. Reynolds, on or before the first Wednesday in April.

The Annual Meeting at which the prize is awarded is held on the first Wednesday in August.

Each Dissertation must bear some motto or distinguishing mark, and be accompanied by a sealed letter containing the name of the writer. The unsuccessful Dissertations, with the accompanying letters unopened, are returned to the writers when called for within the year.

No prizes are awarded, if no one of the Dissertations presented is thought to be of sufficient merit.

COMMITTEE for reading the Dissertations and adjudging their merit: — Edward Reynolds, M.D., *Chairman;* John Jeffries, M.D.; Solomon D. Townsend, M.D.; John B. S. Jackson, M.D.; J. Mason Warren, M.D.; D. Humphreys Storer, M.D., *Secretary;* Charles G. Putnam, M.D.; Morrill Wyman, M.D.; Henry J. Bigelow, M.D.

LIBRARY.

THE UNIVERSITY LIBRARY is divided into four departments, viz. Theological, Medical, Law, and Public; which last, besides books in all other departments of learning, embraces also an extensive collection of works on Theology, Medicine, and Law.

The THEOLOGICAL LIBRARY is in Divinity Hall. Persons entitled to its privileges must be connected with the Divinity School. Number of books, about 12,500. They consist of valuable select works, principally in modern Theology, with some of the early Fathers. Means have been recently devised to add to the Library valuable modern works in Theology and Morals, as they are published.

The MEDICAL LIBRARY is in the Medical College in Boston. It is placed there for the convenience of Students attending the Medical Lectures. The number of books is about 2,000.

The LAW LIBRARY is in Dane Hall. It is designed for the officers and students of the Law School. Number of books, about 14,000. It contains most of the valuable works in English and American Law, and in the Civil Law, together with a variety of others, by writers of France, Germany, and Spain.

The Public or COLLEGE LIBRARY is in Gore Hall. It is for the common use of the whole University, in this respect differing from the other branches of the University Library. The total number of books is about 83,000; of which 1,000 belong to the Boylston Medical Library, in immediate connection with it. Books are borrowed *and returned*, in term time, from 2 to 4 o'clock on Mondays, Tuesdays, Wednesdays, and Thursdays, and in vacations, from 9 to 1 o'clock on Mondays.

The total number of books in the Libraries of the University is, then, as follows: —

Public Library	83,000
Medical "	2,000
Law "	14,000
Theological Library	12,500
Phillips Astronomical Library	1,200
Society Libraries of the Students	15,300
Total,	128,000
